The Burke Neurological Institute invites applications from qualified undergraduate students for its Summer Student Research Program. This program provides an opportunity to conduct cutting-edge research for those students interested in pursuing a career in biomedical sciences. Participants will be part of a laboratory research project related to neural repair and rehabilitation. Summer research students have extensive interaction with their faculty mentors and their staff.

The 2020 program will run from June 1\textsuperscript{st} to August 7\textsuperscript{th}
Trainees will receive a stipend of $3,000
Housing and transportation are the responsibility of each trainee

Applications are due by March 6\textsuperscript{th}, 2020

To apply and get further details, please go the website: http://burke.weill.cornell.edu/future-talent and follow the links to the Summer Science Program

The Burke Neurological Institute works in partnership with Weill Cornell Medicine to develop new therapeutic approaches for a host of impairments that cause disability including paralysis, sensory loss, language problems and dementia.
