MASTER OF SCIENCE IN FORENSIC PSYCHOLOGY

ABOUT

Forensic psychology is a discipline that intersects psychology and the law. The Master of Science in Forensic Psychology online program prepares students for advanced careers within social service organizations and the criminal justice system.

MISSION

The mission of the Cumberland University Master of Science in Forensic Psychology program is for students to employ a scientific approach to understanding behavior in terms of its biological, cognitive, social, emotional, and contextual components, their interactions, and to develop an appreciation for its implications in forensic settings.

ON THE RISE

Cumberland University was founded in 1842 and holds a unique place in American history as one of the oldest private liberal arts universities in the South. Now recognized as one of the fastest-growing liberal arts universities in Tennessee, CU focuses on helping students prepare to launch meaningful careers, pursue their passions, and make the most of their college experience.

Cumberland is located 25 miles east of Nashville in the flourishing Middle Tennessee region, giving students access to vast educational opportunities and career potential.

The university offers traditional undergraduate programs, graduate studies, and online studies. With students from 39 states and 48 countries, CU continues to evolve to meet the needs of a diverse and thriving student body.

Cumberland will help you gain the skills and expertise to rise in your career. We offer graduate degree programs that are designed to fit into your busy life. Whether you are looking to advance in your current career or explore new opportunities, we are committed to helping you achieve your goals.
