Full Time Clinical Research Assistant Position at Dartmouth College – Remote or On Site in Hanover, NH

The Center for Technology and Behavioral Health (CTBH: http://www.c4tbh.org/) at the Geisel School of Medicine at Dartmouth is seeking a full time Research Assistant to work with Dr. Catherine Stanger on a national clinical trial testing web health coaching for young adults with a chronic medical condition (type 1 diabetes). The Research Assistant will provide web health coaching implementing a manualized behavior change intervention to promote healthy behavior. The Research Assistant will also conduct participant screening and onboarding and data management. Opportunities are offered to work with senior investigators and postdoctoral fellows on data analyses, manuscript preparation, and research presentations. The CTBH provides a rich academic and training environment where investigators and research staff interact regularly and engage with national and international collaborators.

REQUIREMENTS
Two years of experience in research with human subjects and/or health coach certification
Bachelor’s or Masters’ degree in a Human Service field preferably in psychology, social work, or counseling
Experience with Redcap or other database, data management, and statistics software highly desirable
A 2-year commitment to the position is preferred. The successful candidate will be enthusiastic, responsible, able to work independently, and have strong interpersonal and communication skills as well as meticulous attention to detail.

Anticipated start date: June 1, 2022
Please email resume or CV and cover letter to Dr. Stanger to apply: catherine.stanger@dartmouth.edu
