Why do an internship or volunteer at Krempels Center Spring semester 2022?

At Krempels Center you will find:

- a unique and innovative model, providing post-rehabilitation services geared specifically to brain injury survivors in both in-person (Portsmouth, NH) and online community settings
- the opportunity for in-depth learning about acquired brain injury from BI survivors and brain injury professionals
- the opportunity to develop evidence-based groups that support motor, communication, cognitive, and social-emotional skills in recreational and classroom-style environments as well as to hone a wide variety of other professional skills, including clinical, public speaking, and telehealth skills
- a welcoming and supportive environment for your learning experience; available to undergraduate (junior or senior) and graduate students
- top-notch supervision utilizing a group supervision model with easy access to supervisors throughout the day
- an interdisciplinary experience (includes allied health and social service professions), providing the opportunity to collaborate with interns and professionals from a variety of professional backgrounds
- experiences that will make your book and classroom learning come alive
- the opportunity to make a difference every day!
