This checklist will guide you in preparing a Psychology major plan for submission in DartWorks. It is intended to help you plan but should not replace your seeking advice from the Chair of the Undergraduate Committee or any other faculty member as you design an effective and satisfying major.

Prerequisite Courses:
- PSYC 1: this prerequisite is fulfilled either by taking the course and earning a grade of C or better, or by receiving an exemption from the class by taking the placement exam. 
  
  *If you did not earn a grade of C or better, you may receive a provisional approval for your major plan now, but you must earn a C or better in your next two Psychology courses to have your major finally approved.*

- PSYC 10: if you have not already taken or are currently enrolled in PSYC 10, you should have scheduled it for the first offering after submitting your major plan.

  *Though not recommended, alternative courses (ECON 10, GOVT 10, MATH 10, and SOCI 10) may be substituted, with approval. MATH 10 credit by AP is NOT accepted until the PSYC 10 placement exam is passed. PSYC 10 may be taken concurrently with PSYC 1.*

Required and Elective Courses:

- PSYC 11 scheduled for after you complete PSYC 10.
  
  *This requirement is strictly enforced. It is strongly recommended that you complete PSYC 11 early on in your plan.*

- At least one course from GROUP A and one course from GROUP B:

  GROUP A: PSYC 23, PSYC 24, PSYC 25
  
  GROUP B: PSYC 21, PSYC 22, PSYC 27, PSYC 28

- At least one elective course numbered 50 or higher.
  
  *Transfer courses are NOT acceptable for this requirement.*

- A course number 60 or higher, but not numbered 88 or 89, which will serve as your Culminating Experience. Typically this is taken during your senior year.
  
  *Transfer courses are NOT acceptable for this requirement.
  
  *Instructor Permission for courses numbered 60 or higher must be obtained through the PBS Permission Course Request Form found at: [http://pbs.dartmouth.edu/undergraduate/permission-courses/request-form](http://pbs.dartmouth.edu/undergraduate/permission-courses/request-form)*

- Three additional elective courses numbered between PSYC 21 – PSYC 89

Important Notes and Resources:
- All major courses must be listed as PSYC courses, including any cross-listed courses. The only exception may be a course equivalent for PSYC 10 (see above).
- No more than two offerings of PSYC 88 or PSYC 89 can be used for the major course count.
- No course approved for this major can be used for any other major or minor.
- If you change your planned courses after your major is approved, you must edit your plan and resubmit it for approval.
